An information technology student who did bachelor's in field of computer science from one of the top university in pakistan. who's looking forward for a job in my related field.

EDUCATION

SPS College Swat

2015
Mingora

BASIC SCHOOL

Subjects which i studied in bsic shchool : English, Math, Science, Computer science, Islamyat and Urdu.

SPS College Swat

2017
Mingora

HIGH SCHOOL DIPLOMA

Subjects which i studied in high school : English, Math, Physics, Chemistry, Pakstudies.

FAST NUCES

2022
Peshawar

BACHELOR OF TECHNOLOGY

BS (Computer Science)

There are a lot of subjects which i studied but i will mention some of them like :

Programing course subjects: introduction to computing (Python) , object oriented programming (C++), Data structure (Python , C++), Object orientented analysis and design (Java), Software engineering (Java), Artifitial intalligence (Python) etc.

GRADES

FAST NUCES-
Peshawar

HIGH SCHOOL

697/1100 (63 %)

Grade-B

BACHELOR

CGPA: 2.39/4.00 (65.85 %)

Our university percentage calculation is different then other universities.

SEMESTER PROJETS

•Bank managment System -

Features: create, update, delete of account, credit and debit of cash

Language: C++

•Hospital Management System-

Features: doctor appointment, patient admit, phrmacy, book room for patient with catagory.

Language: Java + JavaFX + Swing + Mysql

•Calendar with age finder-

Features: normal calendar along with feature, to find the day on which a person was bornt

Language: C++

•Calendar with Clock-

Features: overall feature of normal use calendar with clock(stop watch)

Language: assembly language.

• Premier league information system -

Features: add team , mantain groups, time table for playing soccer between groups and some more funtionalities.

Language: Using PHP ,Mysql, Html, Css.

• odoo- attendance -module -

Features: attendance managment system with handle all record related to student attendance

Language: python + api

• Adroid app development -

Features: attendance managment system with handle all record related to student attendance

Language: java + python + api

AGE AND GENDER PREDICTION

• **Summary:** It was our final year project which predict age and gender of a person from an image. we design a web interface through **Flask** which take an image is a input and predict its age and gender.

• **Abstract:** Markit basket analysis + Social media apps + Figure out interest of people in social places.

• **Field:** Machine learning and Digital Image processing.

• **Language:** python + flask.

• **Technologies:** Keras + TensorFlow + Resnet-50+ k-train.

• **Datasets:** keggel + UTKface.

FUTURE GOALS

• **Vision is to be expert in the following fields:**

1. Machine learning.
2. Artificial intelligance.
3. Data science.
4. Robotics.
5. Back end devoleper.

EXTRA-CURRICULAR ACTIVITIES

Jun 2022 - Present

SPORTS AND ATHLETIC PARTICIPATION

Much interested in all kind of sports like: volleyball, bedminton, soccer, table tennis, basket ball.

Jun 2022 - Present

MOVIES

Like different categories of movies like: Classical + Advanced technologies, History, Animations, Real action and Funny but hate dramas and horror based movies because it make me scared.

PERSONAL DETAILS

Date of birth: 11-july-1998

Nationality: pakistan

Visa status: Approved

Marital status: single

DRIVING LICENSE

Driving license category

LTV: Light transport vehicle valid
for commercial car-taxi , jeep ,
Mini bus and lightweight transport.

INTERNSHIP

developer
