• Premier league information system -

Features: add team, maintain groups, time table for playing soccer between groups and some more functionalities.

Language: Using PHP, Mysql, Html, Css.

• odoo- attendance -module -

Features: attendance management system with handle all record related to student attendance

Language: python + api

• Adroid app development -

Features: attendance management system with handle all record related to student attendance

Language: java + python + api

FYP

FAST NUCES-
Peshawar
Aug 2021 - Jun 2022

• Age and Gender Prediction

• **Summary:** It was our final year project which predicts age and gender of a person from an image. We design a web interface through **Flask** which takes an image as an input and predicts its age and gender.

• **Abstract:** Market basket analysis + Social media apps + Figure out interest of people in social places.

• **Field:** Machine learning and Digital Image processing.

• **Language:** python + flask.

• **Technologies:** Keras + TensorFlow + Resnet-50 + K-Train.

• **Datasets:** kaggle + UTKface.

FUTURE GOALS

• Vision is to be expert in the following fields:

1. Machine learning.
2. Artificial intelligence.
3. Data science.
4. Robotics.
5. Back end developer.

EXTRA-CURRICULAR ACTIVITIES

DRIVING LICENSE

Driving license category

LTV: Light transport vehicle valid for commercial car-taxi , jeep , Mini bus and lightweight transport.

Jun 2022 - Present

Sports and Athletic Participation

Much interested in all kind of sports like: volleyball, bedminton, soccer, table tennis, basket ball.

Jun 2022 - Present

Movies

Like different categories of movies like: Classical + Advanced technologies, History, Animations, Real action and Funny but hate dramas and horror based movies because it make me scared.
