PERSONAL DETAILS

Date of birth
11-july-1998

Nationality
pakistan

Visa status
Approved

Marital status
single

DRIVING LICENSE

Driving license category
LTV: Light transport vehicle valid for commercial car-taxi , jeep , Mini bus and lightweight transport.

ABOUT ME

An information technology student who did bachelor's in field of computer science from one of the top university in pakistan. who's looking forword for a job in my related field.

EDUCATION

2015 — **BASIC SCHOOL**
SPS College Swat | Mingora

Subjects which i studied in bsic shchool : English, Math, Science, Computer science, Islamyat and Urdu.

2017 — **HIGH SCHOOL DIPLOMA**
SPS College Swat | Mingora

Subjects which i studied in high school : English, Math, Physics, Chemistry, Pakstudies.

2022 — **BACHELOR OF TECHNOLOGY**
FAST NUCES | Peshawar

BS (Computer Science)
There are a lot of subjects which i studied but i will mention some of them like :
Programing course subjects: introduction to computing (Python) , object oriented programming (C++), Data structure (Python , C++), Object orientented analysis and design (Java), Software engineering (Java), Artifitial intalligence (Python) etc.

GRADES

BASIC SCHOOL
Mingora-Swat

871/1100 (79 %)
Grade-A

HIGH SCHOOL
Mingora-Swat

697/1100 (63 %)
Grade-B

BACHELOR
FAST NUCES-Peshawar

CGPA: 2.39/4.oo (65.85 %)
Our university percentage calculation is different then other universities.

SEMESTER PROJETCS

•**Bank managment System -**
Features: create, update, delete of account, credit and debit of cash
Language: C++

•**Hospital Management System-**
Features: doctor appointment, patient admit, phrmacy, book room for patient with catagory.
Language: Java + JavaFX + Swing + Mysql

•**Calendar with age finder-**
Features: normal calendar along with feature, to find the day on which a person was bornt
Language: C++

•**Calendar with Clock-**
Features: overall feature of normal use calendar with clock(stop watch)
Language: assembly language.

• **Premier league information system -**
Features: add team , mantain groups, time table for playing soccer between groups and some more funtionalities.
Language: Using PHP,Mysql, Html, Css.
• **odoo- attendance -module -**
Features: attendance managment system with handle all record related to student attendance
Language: python + api

• **Adroid app devolepment -**
Features: attendance managment system with handle all record related to student attendance
Language: java + python + api

FYP

AUG 2021
JUN 2022 — **AGE AND GENDER PREDICTION**
FAST NUCES-Peshawar

•**Summary:** It was our final year project which predict age and gender of a person from an image. we design a web interface through **Flask** which take an image is a input and predict its age and gender.
•**Abstract:** Markit baskit analysis + Social media apps + Figure out interest of people in social places.
•**Field:** Machine learning and Digital Image processing.
•**Language:** python + flask.
•**Technologies:** Keras + TensorFlow + Resnet-50+ k-train.
•**Datasets:** keggle + UTKface.

FUTURE GOALS

• **Vision is to be expert in the following fields:**

1. Machine learning.
2. Artificial intalligence.
3. Data science.
4. Robotics.
5. Back end devoleper.

EXTRA-CURRICULAR ACTIVITIES

JUN 2022
PRESENT — **SPORTS AND ATHLETIC PARTICIPATION**

Much interested in all kind of sports like: volleyball, bedminton, soccer, table tennis, baskit ball.

JUN 2022
PRESENT — **MOVIES**

Like different categories of movies like: Classical + Advanced technologies, History, Animations, Real action and Funny but hate dramas and horror based movies because it make me scared.
